Shutdowns | Turnarounds | Outages

## Mission Statement

DXP is dedicated to the highest quality of customer service through our expertise of the products we distribute and the technical services we perform with a sense of individual pride and company spirit.

## Vision Statement

We aspire to be the best solution for the Industrial customers' needs for MROP products and services through our Innovative Pumping Solutions, Supply Chain Services and Service Centers.

## DXP History

Over the years we have strengthened our ability to support our customers by acquiring a diverse group of specialized companies, all known as the best at what they do. As The Industrial Distribution Experts, DXP united these companies with a powerful corporate focus on product expertise, technical service and supply chain management.

Founded in 1908 as Southern Engine and Pump Company, DXP is now a publicly traded multi-national distribution company that provides products and services to a variety of industries. Even as we grow, one thing will never change: our service and commitment to building life-long relationships with our customers and suppliers.

## STO Services

### Shutdowns | Turnarounds | Outages

DXP provides professional on-site safety personnel and equipment to reduce risk mitigation and meet industry safety requirements during your plant shutdowns, turnarounds and outages (STO). Through our rigorous team member selection and safety education processes we provide the technical expertise and customer service to construct a safety solution that suits your site-specific needs. Our dedicated safety professionals are committed to continuously improving the quality of our services allowing us to deliver the industry's highest safety performance.

## Safety Advisors

DXP's safety advisors will evaluate and monitor safety hazards, and control strategies on behalf of our client during operations to ensure compliance with company/client safety rules, policies, programs, criteria and procedures as well as all governmental regulations and industry best practice standards. These services will include: Health and safety support, work practice observations and project site safety audits.

## Safety Supervision

DXP's safety supervision personnel are responsible for the protection of all workers under their area of assignment. Duties include, but are not limited to: Fire watch, bottle watch, rescue watch, safety watch, permit coordination and air quality monitoring.

## Confined Space Attendant

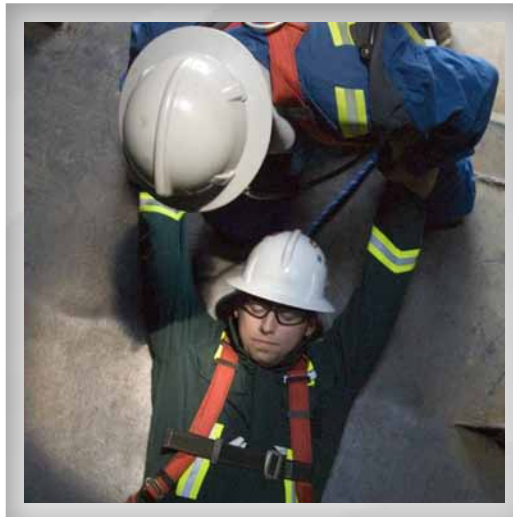

Confined spaces present a multitude of dangerous realities such as chemical, atmospheric, and psychological hazards that can endanger personnel and affect operations. DXP's confined space attendants are trained and equipped to manage such hazards, ensuring the safety of workers before, during, and after the confined space entry.

## Confined Space Rescue

Highly trained and specialized rescue is a necessity should an emergency occur in a confined space; especially if hazards such as oxygen deficiencies, toxic gases, and explosive atmospheres are present. DXP's confined space rescue teams are fully trained and equipped to manage any such emergencies.

## High Angle Rescue

DXP's high angle rescue teams have the critical training and experience to properly handle the ropes, anchoring, belaying, lowering, and hauling systems that come with high angle rescue operations. High angle rescue personnel and equipment can be pre-staged where necessary to accommodate locations where a high angle rescue may become a necessity.

## Respiratory Fit Testing

Workers that are required to use a respirator during the course of their duties are also required to undergo a respirator fit test specific to the style of respirator they are using. DXP provides quantitative fit testing services that can be performed on-site in 5-10 minutes. MEQ's (Medical Evaluation Questionnaire) are also available in a web-based format that is both efficient and secure.

## Breathing Air Equipment

DXP maintains a large inventory of SCBA, SAR, and auxiliary equipment for short and long-term rental needs. All breathing air meets or exceeds the minimum requirements for CGA Grade D breathing air.

## Air Trailers

DXP maintains a large fleet of air trailers that provide safe breathable air to workers in toxic and/or oxygen deficient atmospheres. The nominal capacity of each trailer is 2,640 cu. ft. of breathing air that meets or exceeds CGA Grade D requirements allowing for up to a total of 27 hours of breathable air. DXP's air trailers are light-weight and are easily moved around the work site.

## Gas Detection

DXP offers a full line of gas detection to monitor for toxic and noxious gases as well as oxygen deficient and explosive atmospheres. With equipment ranging from personal and portable monitors to fixed systems with optional real-time satellite GPS and data-logging capabilities, DXP has the equipment to provide the protection your workers require.

## Audiometric Testing

DXP provides audiometric testing to ensure compliance with your regulatory and hearing conservation standards. Whether it is baseline testing or follow up, DXP offers programs that ensure compliance with regulatory requirements for hearing protection.

## Industrial Hygiene

DXP offers industrial hygiene services that are designed to measure chemical and physical hazards at the work-site. Services include NORM monitoring, noise testing, and chemical exposure monitoring.

## Specialized & Standby Fire Protection

DXP offers a range of specialized fire apparatus' that can be placed on-site for standby fire protection. DXP fire protection apparatus' range from trailer-mounted 150 gpm pumps to truck mounted 2000 gpm pumps with onboard water and foam supply and operated by DXP's skilled fire protection specialists.

## Emergency Shower & Eyewash Services

DXP emergency shower & eyewash services provide emergency treatment for workers that come into physical contact with hazardous or corrosive materials. With specifications that meet ANSI Standard Z358.1, DXP can ensure workers are protected in case of emergencies. Shower trailers are also available that meet the requirements for Class 1, Division 2 areas.

## Industrial Medical Services

In high activity, high-risk environments additional protection may be required in case of an incident. DXP industrial medical services can provide highly trained medical responders that will provide immediate on-site care ranging from basic first aid to advanced life support. MTC's (Mobile Treatment Center) are also available to provide a clean, private environment in which to treat an injury. DXP medical personnel can also provide ancillary services such as on-site drug testing and PFT's (Pulmonary Function Testing).

## Cool Down Trailers

In areas of extreme ambient air temperatures, heat takes a toll on workers. DXP has constructed portable trailers with 36" evaporative cooling fans and an on-board 200 gallon water tank to provide workers with relief from the debilitating effects of high ambient temperature environments. DXP cooling units can be deployed utilizing a self-contained power supply with auxiliary fuel tank or can be connected to an existing on-site 120V power outlet.

## Safety Training

From single workers to large corporate programs, DXP's Safety Training Programs can be scaled to fit any client's needs. A wide range of courses are offered and can be delivered at the local DXP facility or at the client's facility. Course options include: a full line of training DVD's, interactive CD's, online safety courses and instructor-lead classroom training.

## Fall Protection Repair/Maintenance

DXP provides factory certified block repair/maintenance to fall protection equipment with the convenience of an on-site mobile service trailer.

## MROP Trailers

DXP's MROP trailers can be stocked and staffed to meet the client's needs by providing a wide range of PPE and MRO supplies along with the convenience of immediate on-site purchase.

## Contact Us
