

## Smart Customer Managed Inventory

**Our promise to you:** As the spread of Coronavirus (COVID-19) continues, DXP Enterprises, Inc. is a critical infrastructure supplier to multiple industries. As a response to this epidemic, DXP will continue operations so we can be sure to help meet the needs of our customer while maintaining all guidelines put out by the CDC.

## Ordering Made Simple

**DXP's SmartCMI Solutions** help keep your operations at full capacity while maintaining social distancing and minimizing human interaction and touch. We will provide you with all the tools to properly maintain your inventory. Your custom database can be accessed by the DXP IOS app and/or the DXP Webshop.

**Features include:** barcode scanning for quick reordering, RFQ (Spot Buy) process, purchasing hierarchy, and report to help with budgeting.

- All the industrial products your company needs
- Access on web or mobile app
- Buying products is simple, intuitive, fast

## How It Works

1. Provide a list of items you require.
2. DXP to provide a pricing file for the items.
3. Database created for the items.
4. Login provided to the database.
5. Barcodes ship to you. (Bins can be provided if needed)
6. Start scanning
7. Material shipped to site.

## Speed Up Processes, Increase Productivity

No matter how large your supply room, DXP experts create a solution tailored just for you. We are dedicated to creating technical solutions for our customers' needs.
