THE POWER OF DXPeople

D-X- people /D X 'pēpəl/- (noun)

A particular group of individuals collectively serving their customers in the best way they can while working together as one team.

Our people are the heart of our organization. DXPeople are dedicated, loyal and thrive on the act of serving customers. We are a close-knit family, and we care for our customers, suppliers and partners with the same hospitality. The values of our DXPeople shine through in each interaction in the field. We are driven by problem solving for the customer and providing the Xpertise and service you rely upon.

OUR COMPANY

For more than 100 years, DXP Enterprises has served as a leading industrial distribution expert in the industry. Product specialties include rotating equipment, bearings and power transmission, metalworking, industrial supplies and more. Our company continues to stay on the leading edge of technology, training, and products while attracting and retaining the best employees. From aviation and agriculture to fabrication and construction, we offer dedicated service and support for a variety of industries.

OUR FOCUS

At DXP, our corporate strategy is simply to be the best solution for our industrial customers. Our team is comprised of customer-driven experts in a variety of specialties, including supply chain services, pump manufacturing, and renewable energy solutions. In the best interest of our clients and partners, we maintain compliance of all statutory and regulatory requirements. DXP is committed to providing quality products and services that exceed our customer's expectations.

OUR COMMITMENT

At the center of our approach to corporate responsibility, DXP is committed to delivering transparency, both in our own operations and on behalf of our customers. We firmly believe that the power of active decision-making is the best way to achieve consistent and reliable sustainability. Our robust Environmental, Social, and Governance (ESG) Strategy will allow us to drive improvements wherever and whenever possible, all while serving our clients and protecting the environment. As we actively work internally and externally to meet ESG reporting standards, we encourage you to do the same.
