SECURACHEM BENEFITS

- Capacity to store over 100 SKUs depending on size equivalent to a 60-gallon storage unit
- Accommodates 99% of all chemicals and solvents
- Ingenious element-proof binning and spill control.
- Dispensing in singles or bulk using bar codes & reader
- Controlled-access system with user authentication, motion-sensing cameras and cloud storage
- Automated reporting—track to job, equipment or cost center
- MSDS available online at the SecuraChem site

COMMON ISSUES SECURA-CHEM ADDRESSES

- **Access:** Can be difficult to find the person with the key especially on 2nd & 3rd shifts; Or they are left unlocked, resulting in free access and no control
- **Reporting:** No automated tracking / reporting to show who took assets
- **Reordering:** Reorder process is totally manual
- **Inventory Control:** Stockouts are commonplace; emergency reorders and high costs are frequent
- **Product Tracking:** Once removed, can't find a product when needed
- **Safety:** Flammable items accumulate at work stations or in unsafe areas
