

SecuraTower

TRANSFORMING THE WAY INVENTORY IS DONE

SecuraTower has the capacity to handle dozens of consumable SKUs with the flexibility to secure larger, high value assets.

HIGH SECURITY ZONES

Motion tracking cameras record each transaction protecting both consumable and durable goods. Each shelf is a separate “zone” allowing managers to control access by individual, department or any custom grouping.

TWICE AS MUCH INVENTORY CAPACITY AS A COIL MACHINE

Secure hybrid design vending machine can handle up to 125 SKUs.

EASY TO ACCESS INVENTORY, EASY TO RE-STOCK

Patented angled shelf and bin system makes inventory highly visible and accessible.

MIX, MATCH, FIND YOUR PERFECT SOLUTION

The Tower Add-On can be paired with any SecuraStock unit to add highly secure, flexible vending capacity. Up to three Tower Add-Ons can be paired and daisy-chained together with any SecuraStock unit to add highly secure, flexible vending capacity.

ENHANCED AUTHENTICATION SECURITY SYSTEM

- 4 separate high security access Zones in each Tower
- Customer defined controls for Zone access permissions
- Motion sensing camera technology records all interactions; playable with one click

ULTIMATE INTERCHANGEABILITY

- Link the SecuraTower to the SecuraStock or SecuraLocker to add another layer of security for high value items
- Plug and play connect to all SecuraStock products

HIGH-CAPACITY UNIT

- 2 times the capacity of traditional vending machines
- Lowest cost per vended SKU

POWERFUL INVENTORY MANAGEMENT SOFTWARE

- Manage inventory from the vending unit, your smartphone or PC
- Connects directly to your ERP system
- Generates reorders, notifications and reports
- Check-in and check-out items
- Track expiry and calibration dates and much more
