# ABOUT DXP

DXP Enterprises (DXP) is a leading industrial distribution company. Our product specialties include rotating equipment, bearings and power transmission, metal working, industrial supplies and more. From aviation and agriculture to fabrication and construction, we offer dedicated service and support for a variety of industries. Our DXPeople are comprised of customer-driven experts in a variety of specialties, including supply chain services, pump manufacturing, and renewable energy solutions.

**INDUSTRIES SERVED**

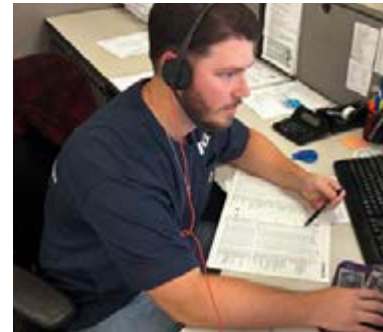

- Construction & Fabrication
- Oil & Gas
- Transportation
- Food & Beverage
- Agriculture
- General Manufacturing
- Municipal
- Aviation
- Mining
- Energy
- Chemical
- Oil Refinery
- Renewable Energy

# OUR DXPEOPLE

## PRONOUNCED D-X-PEO-PL

Our DXPeople are the heart of our organization. DXPeople are dedicated to helping our customers meet their goals. We are a close knit family, and we combine a national distribution network with customer-first hospitality.

The values of our DXPeople shine through in each interaction in the field. We are driven by problem solving for the customer and providing the "Xpertise" and service you rely upon.

# TABLE OF CONTENTS

## 4-9 ROTATING EQUIPMENT

- Centrifugal Pumps
- Submersible Pumps
- Specialty Pumps
- Air Compressors
- Electric Motors
- Positive Displacement Pumps
- Metering Pumps
- Vacuum Pumps & Blowers
- Mechanical Seals & Packing
- Service/Repair/Remanufacturing
- Engineered Fabrication
- Process Controls & Automation

## 10-17 SAFETY

- Apparel – FR
- Apparel – Other
- Ergonomics
- Eye & Face Protection
- Facility Management
- Fall Protection
- Fire Protection
- First Aid
- Foot Protection
- Hand Protection
- HazMat
- Head Protection
- Hearing Protection
- Instrumentation
- Miscellaneous Safety
- Respiratory
- Seasonal PPE
- Traffic
- Welding
- Safety Services

## 18-29 BEARING & POWER TRANSMISSION

- Bearings
- Mechanical Power Transmission
- Seals
- Chemicals
- Hose
- Linear Motion Products
- Fluid Power/Fluid Power Hydraulics
- Material Handling
- Clutches & Brakes

## 30-35 METAL WORKING

- Abrasives
- Holemaking
- Marking & Labeling
- Milling
- Power Tools
- Saw Blades
- Lathe
- Clamping & Workholding
- Lubricants, Fluids, & Coolants
- Material Handling & Storage
- Milling Holders
- Precision Instruments & Gauging
- Threading
- Turning & Boring

## 36-43 INDUSTRIAL SUPPLIES

- Abrasives
- Chemicals & Coatings
- Electrical Supplies
- Fasteners
- Industrial Pipe, Valves & Fittings
- Janitorial Equipment
- Tools
- Welding Supplies & Equipment

## 44-47 RENEWABLE ENERGY

- Biogas Pre-Treatment Skids
- Biomethane Capture System
- Renewable Hydrogen Production System
- Chemical Injection Pumps & Systems
- Biodiesel Slurry Pumps
- Biogas Tanker Truck Loading/Offloading
- Bioethanol Pumps & Systems
- Biofuel Plant Heat Exchangers
- Gas Pressure Regulations & Controls
- CO2 Pumping & Sequestration
- Particle Filtration Systems
- Balance of Plant Equipment
- Renewable Oil Blending Systems
- Plant Ammonia Handling for NOx Emission Control
- Design & Fabrication of Renewable Hydrogen Modules
- Condition Monitoring
- Automation & Power Control Buildings
- Vacuum Pumps & Compressors
- Geothermal Brine Re-injection Pumps
- Lobed Blowers
- Biogas Digester Feed/Circulation Hose Pumps
- Fuel Gas Conditioning
- Isoboost System

# ROTATING EQUIPMENT

## CENTRIFUGAL PUMPS

### Horizontal Industrial Centrifugal

Allweiler | Cornell | Crane Pumps (Barnes, Burks, Crown Pumps, Deming, Weinman)

| Dean Pumps | Flowserve | Fibroc | Gorman Rupp | Grundfos (Grundfos/Peerless/Paco) | Gusher | Hayward Gordon | Iwaki | KSB | Magnatex | MP | O'Drill/MCM | Pentair Group (Fairbanks Nijhuis/Aurora) | PumpWorks | Scot | Sero | Sulzer | Sunstrand (Sundyne/Sunflo) | Trillium (Floway, Roto-Jet, Wemco, WSP) | Vanton | Vertiflo | Xylem, Goulds Water Technologies

### Horizontal Pumping System

Baker Hughes | PumpWorks HP-Plus

### Sealless Pumps

Ansimag | HMD Kontro | Innomag | Isochem | Iwaki | Liquiflo | Little Giant | Magnatex March | MTH | PumpWorks | Sundyne | Richter

### Self-Priming Pumps

Barnes | Crown | Godwin | Gorman Rupp | Gusher | MP | Pioneer | Price | PumpWorks | Trillium WSP | Xylem, Goulds Water Technology

### Food & Beverage/Pharma

Alfa-Laval | Ampco | CIRCOR | Graco | Murzan | Netzsch | Q-Pumps | Seepex | SPX Flow (APV, Waukesha Cherry-Burrell)

### General Service

Armstrong | Berkeley | Ebara | Flojet | Franklin Electric | Grindex | Grundfos | Hydromatic | Jabsco | KSB | MP | Price | Scot | Tonkaflo | Xylem, Goulds Water Technologies

### API 610

PumpWorks | Sundyne

### Vertical Turbine Pumps

Cascade | Floway | Franklin Electric | Peerles | National | Pentair Group (Fairbanks Nijhuis Aurora) | PumpWorks | Simflo | Xylem, Goulds Water Technology

### Fire Pump Packages

AC Fire | Peerles

## SUBMERSIBLE PUMPS

### Grinder

ABS | Ebara | Flygt | Vaughan | Xylem, Goulds Water Technology

### Dewatering

Barnes | BJM | Ebara | Flygt | Gorman Rupp | Grindex | KSB | Xylem, Goulds Water Technology

### Heavy Duty Abrasive

BJM | Flygt | Grindex | KSB | Polaris | Vulcan

### General Service

Barnes | Ebara | Grindex | Hydromatic | KSB | Xylem, Goulds Water Technology | Zoeller

### Sewage & Wastewater

ABS | Barnes | BJM | Ebara | Flygt | Gorman Rupp | Hydromatic | Keen Pumps | KSB | Xylem, Goulds Water Technology

## SPECIALTY PUMPS

### Hydraulically Balanced Diaphragm

Wanner Hydra-Cell

### Regenerative Turbine

Aurora | Burks | MTH

### Diaphragm Process Pump Manufacturers

Bran+Luebbe

### Disc Pump

Discflo

### Eccentric Disc

Mouvex

### Drum Pumps

Lutz | Finish Thompson

### Peristaltic Pump

Abaque | LSM | Netzsch | Vector | Watson Marlow | APV

### High Pressure Pitot Tube

Roto-Jet

### Drum Unloaders

Graco

### Homogenizers

APV

## AIR COMPRESSORS

### All Air Compressors Manufacturers

Atlas Copco | Blackmer | Champion | Corken | F.S. Elliot | Gardner Denver | Ingersoll Rand | Kaeser

## ELECTRIC MOTORS

### All Electric Motors

ABB Baldor | G.E. | Marathon | Nidec | TECO-Westinghouse | Toshiba | WEG

## POSITIVE DISPLACEMENT PUMPS

### Rotary Gear

Blacker G-Series | Bowie | Corken | Oberdorfer | Roper | Viking

### Vane

Blackmer | Corken | Viking

### Screw

Gusher | Houttuin | IMO | Netzsch | Q-Pumps | Warren | Waukesha Cherry-Burrell

### Sealless

Blackmer E-Series | Hydra-Cell | Isochem | Liquiflo | Micropump | Mouvex | Viking

### Lobe

Alfa Laval | APV | Boerger | Netzsch | Q-Pumps | Swaby | Viking Hygienic | Vogelsang | Waukesha Cherry-Burrell

### Progressive Cavity

Continental | Liberty | Moyno | Netzsch | PCM | PumpWorks | Seepex

### Plunger/Piston

CatPumps | FMC | Kerr Pump | Myers Aplex | NOV | Weatherford

### Air Operated Double Diaphragm

Almatec | ARO | Graco | Iwaki | Murzan | Warren Rupp Versamatic | Warren Rupp | Wilden | Yamada

## MECHANICAL SEALS & PACKING

### Mechanical Seals

AES | AST | Eagle Burgmann | Flex-A-Seal | Flowserve | John Crane | Utex

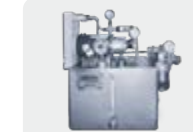

### Fluid Filtration

Eaton Filtration | Hayward Strainers | Viking

### Packing

Braiding Rainsflo | Garlock | New England | SEPCO

### Eco-Save

Pro-Seal

## METERING PUMPS

### All Metering

Bran+Luebbe | LMI | Milton Roy | Neptune | ProMinent | Pulsafeeder | Pulsatron

## VACUUM PUMPS & BLOWERS

### Dry Screw

NAVAC | Leybold | NES Company

### Vacuum Boosters

Leybold | NES Company | TMS

### Dry Scroll

NAVAC | Leybold | NES Company

### Dry Vane (Oil-Free Rotary Vane)

Becker | Airtech (Orion) | DVP | NES Company

### Dry Claw

Airtech | DVP | NES Company

### Oil Sealed Lubricated Vane

NAVAC | Airtech | Travaini | Leybold | TMS  
(Part of the Busch Group)

### Dry Vacuum, Multistage Roots Type

Onozawa | Leybold

### Lobe Blowers-Vacuum & Pressure

NAVAC | Eurus Blowers | I-R Hibon | DVP | Unozawa

### Multistage Centrifugal Blowers

I-R Hibon | National Turbine | Eurus Blowers

### Liquid Ring Pumps & Compressors

Travaini | Airtech (Speck) | Dekker (Atlas Copco) | NES Company

### Rotary Piston

Edwards Vacuum (Edwards)

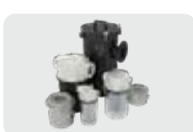

### Regenerative Blowers

Airtech | DVP | Becker

### Truck Mounted Rotary Vane

Masport | Fruitland | MoroUSA | NVE | Cowboy

### Filters & Separators

Solberg

### Modular Custom Systems (Turnkey Packages)

## ENGINEERED FABRICATION

### LACT

Lease Automatic Custody Transfer skids for accurate midstream measurement of crude oil and petroleum products. We supply several LACT units for

truck loading/unloading, pipeline gathering, multi-well measurement, and a tankless unit that integrated with separators and 2-20 wells. Our LACT units are sure to meet your fabricated measurement needs.

### IFS Engineered Pump Solutions

Industrial pump packages from pump selection to installation. Our capabilities cover pumps for use in firewater, chemical injection, saltwater injection, potable water,

oil pipeline, cooling water, LACT, amine, produced water systems, and more. Our 100 years of fabrication experience enables us to offer the highest quality products alongside 24/7 year-round service, factory trained technical help, field service, root cause failure analysis, safety programs, etc.

## SERVICE/REPAIR/REMANUFACTURING

### Pump Service & Repair Centers

65+ Repair Shops Across North America | 24 Hour Service/365 Days a Year | All Makes and Models, Big and Small | High Specification

Experience | Trained Expert Mechanics and Machinists | Experienced Field Service Technicians | Engineering and Applications Support | Preventative and Predictive Maintenance | Maintenance and Service Agreements (MSAs) | Expert Root Cause Failure Analysis

### Field Service

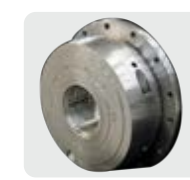

DXP's team of pump field service experts have experience with all major OEM brands. We know that a pump is critical to the operation of your facility,

and it is a major investment. Let us service your pump when the need arises.

### Rerates

DXP's engineers and pump experts can evaluate, redesign and rerate your pump to address a change in operating range, efficiency or reliability.

### Babbitt Bearing Repair

Large steam and gas turbine and generator journal and thrust bearings | Hydroelectric turbine guide and thrust bearings | Fan bearings, including very large boiler draft fans | Pump bearings,

including large cooling water pumps | Motor bearings | Thrust bearings, including tapered land and tilt pad | Ball mill bearings | Pillow block bearings for industrial process machines | Hydrogen seals for gas filled generators | Babbitted oil seals | Toothed oil deflectors | Floating and fixed oil rings

### Remanufactured Pumps

PumpWorks Remanufactured Pumps | Power Machinery Inc., Houston, TX

### Upgrades

PumpWorks Power End Upgrade Program

## PROCESS CONTROLS & AUTOMATION

DXP is your trusted expert to provide the mechanical equipment to carry out your processes. We know how the equipment should be run to optimize the life-cycle of the parts and can engineer the automation and controls to better support the equipment and maximize your processes.

### Advanced Control Systems

Our advanced control systems provide you with the capability to monitor and control multiple processes from a single interface.

### Automation

Automation of process controls reduces the risk of human error and improves safety.

### Training & Support

Our expert staff can provide you with the skills and knowledge you need to operate your automation system with confidence.

### Predict-Plus

Predict-Plus is the only wireless and cloud connected machinery health monitor designed specifically for proactive pump monitoring.

**ALWAYS ON:** Predict-Plus is CONTINUOUSLY monitoring and logging your pump's health.

**CLASS 1, DIVISION 1:** Predict-Plus is intrinsically safe.

**VIBRATION:** Overall RMS vibration alerts can be used to indicate a fault condition and FFT harmonic data can be used to diagnose the issue.

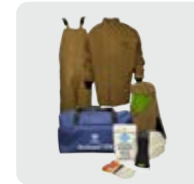

**BEARING TEMPERATURE:** Temperature is monitored via the integrated thermocouple to detect improper run conditions and failure modes.

**ALERTS:** Proactive Alerts send automatically via email and SMS from the Predict-Cloud.

## SAFETY SERVICES

DXP safety services comprises many of the nation's most respected names in the safety industry. DXP has assembled a network of safety professionals who have built their reputations on providing reliable solutions to occupational and industrial safety problems. DXP safety services is not just any safety retail outlet, we are a comprehensive, solution-driven enterprise.

With service centers strategically located across the continent, DXP is able to provide any industry client with safety services backed by highly trained staff with years of experience, and state-of-the-art equipment. Through a series of strategic acquisitions and organic growth, we are an all-inclusive safety services provider that doesn't just lead the industry, we help define it. Trust the safety and security of your people and operations to North America's safety experts.

### Technical Expertise

- Plant Turnarounds
- Equipment Rental
- Safety Supervision
- Training
- Safety Consulting
- Emergency Response
- Development of Written Safety Programs
- Safety Award Programs
- Rescue Teams
- Instrument Repair
- PPE
- Safety Products such as Arc Flash, Eye and Face, Fall Protection, Fire Protection, First Aid/Medical, Hazardous Material Handling, Lockout/Tag Out, Hearing Protection, Industrial Hygiene, Gas Detection, Sorbents, and Spill Control

### Capabilities

- H<sub>2</sub>S Safety Services
- Air Trailers
- Breathing Air Equipment
- Breathing Apparatus Servicing
- Gas Detection
- Fire EXT. Services
- Safety Supervisors & Consultants
- Safety Technicians
- High Angle/Rope Rescue
- Confined Space Rescue
- Confined Space Attendant
- Emergency Shower & Eye Wash Services
- Climate Control Center
- Industrial Medical Services
- Respiratory Fit Testing
- Industrial Hygiene
- Safety Training
- Safety Products

# RENEWABLE ENERGY

## PRODUCTS

### Biogas Pre-Treatment Skids

With decades of experience in gas conditioning, DXP is able to design, select and build the correct pre-treatment (H<sub>2</sub>S, VOC, Siloxane removal) equipment for your biogas process. Where it is for utilization

and your CHP (combined heat and power) engine for power generation applications or the complete biomethane recovery process to inject in the pipeline or load onto tanker trucks.

### Biomethane Capture Systems

DXP designs complete solutions for the recovery of methane from your biodigester, landfill or any biomass application. From Pre-treatment to methane capture, DXP is able to design and select the best technology for your process conditions. Our process simulation and extensive controls, mechanical and rotating equipment expertise come together to deliver a comprehensive solution, custom built for each application.

### Renewable Hydrogen Production System

DXP's Renewable Hydrogen Production Systems are designed to facilitate the generation of grey, blue or green hydrogen near the source or at the delivery point.

No matter the color, our skid mounted and/or containerized packaging guarantees an on-site, on-demand delivery of clean hydrogen to your plant or equipment at adequate flows and pressures.

### Chemical Injection Pumps & Systems

DXP Standard and Custom-built Chemical Injection Systems are designed, packaged and fully tested for a wide range of liquid chemical treatment applications. The

complete system includes a chemical storage tank, two 100% metering/dosing pumps, instruments, tubing, valves, calibration column and filtration.

### Biodiesel Slurry Pumps

Pumps and complete transfer pump systems utilizing slurry pumps that can handle oils and animal fats used in the biodiesel generation process.

### Biogas Tanker Truck Loading/Offloading

Complete skid mounted systems to connect between the virtual pipelines (tube trailers) and state pipelines. Systems may include biomethane pressure reduction/pressure boosting, heating,

measurement and pipeline specification control, as required. Systems are designed for outdoor installation and can be adapted to any climate.

### Bioethanol Pumps & Systems

DXP's Packaged Pump Systems are designed to transfer various industrial liquids (raw materials, water, chemicals,

etc.) from into and within a process plant. The complete system includes centrifugal pump(s)/motor(s), suction/discharge piping, valving, instrumentation, controls and is designed to minimize on-site assembly.

### Biofuel Plant Heat Exchangers

Heat exchangers are applied in biofuel plants, any time heat from a process is being recovered or utilized in another process (e.g. economizer or heat

recovery systems). Bioethanol plants require heat exchangers for applications such as reboiler, mash heaters or overhead condensers. DXP is able to select the correct heat exchanger for all of your plant applications.

### Gas Pressure Regulations & Controls

Gas Pressure Reduction Stations or Compressed Natural Gas (CNG) Decanter

Systems are pre-designed, packaged and fully tested for a wide range of pipeline applications. The complete system includes a process simulation using Honeywell UniSim ( Gas pressure regulation and controls, Design and fabrication of process plant modules )

### CO2 Pumping & Sequestration

CCSU (Carbon Capture, Sequestration, and Utilization) will be an integral part of the carbon footprint reduction

process for any industrial facility in the future. Our process simulation capabilities and experience pumping liquids in dense and super-critical phases combine to provide a one-stop shop for all your CO2 transfer and injection applications. No matter your requirement, with our PumpWorks full line of API-610 process pumps, DXP can help you with low, medium, and high-pressure CO2 pumps and pumping systems.

### Condition Monitoring

With the use of PumpWorks' cloud based Predict-Plus Remote Pump Monitoring systems, DXP is able to provide plant equipment vibration and temperature monitoring and trending. PumpWorks Predict Plus utilizes a

cellular based communications platform that allows data visualization and storage for temperature, RMS vibration and Fast Fourier Transform (FFT) on any computer or mobile device across the North American and in over 107 different countries.

### Vacuum Pumps & Compressors

Liquid Ring Vacuum Pumps and Compressors are widely utilized in the biofuel industry. In bioethanol plants, Liquid-Ring Vacuum pumps are used

in the distillation and rectification process as well as during the mash liquefaction and drying cycles. By operating under vacuum, the energy consumption of the process is reduced. In the biodiesel industry, liquid ring vacuum pumps and compressors are applied during the separation of biodiesel and glycerine among other filling and emptying applications.

### Fuel Gas Conditioning

DXP Fuel Gas Conditioning Skids are designed to protect natural gas fueled engines and turbines from liquid slugs, solids (< 0.1 microns) and liquid aerosols. Additionally, the fuel gas is superheated above the hydrocarbon

and water dew points to prevent liquid condensation in the turbine's combustion chambers. These systems meet or exceed reciprocating engine and turbine manufacturers' fuel gas quality specifications providing dry, clean fuel to increase the life of the equipment.

### Particle Filtration Systems

Filtration Packages are designed to filter particulate from any process before entering the reactors. DXP's Filter Packages extend the life of the catalyst and reduce catalyst

regeneration cycles.

### Design & Fabrication of Process Plant Modules

DXP's process capabilities allow us to engineer and build modular gray, blue and green hydrogen generation systems. Hydrogen modules are either

build-to-order or engineered to optimize our customer's process requirements (the latter utilizing Honeywell UniSim ( Gas pressure regulation and controls, Design and fabrication of process plant modules ). Whether skid mounted or containerized, our packages are designed as truckable modules for ease in transportation worldwide and minimum site installation time.

### Geothermal Brine Re-injection Pumps

DXP offers API-610 and non-API pumps with the specific metallurgy required to handle the scaling, corrosion and potential high temperatures observed in brine re-injection. These pumps

are used in Carbon Capture, Utilization and Storage (CCUS) processes. With over 100 years of experience in rotating equipment selection and application, DXP can offer the complete pump, auxiliary and control system for any of your geothermal fluid transfer or injection needs.

### TurboBoost System

TurboBoost is a hydraulic system that recovers pressure energy, reduces power consumption and increases the reliability of pumping systems.

### Balance of Plant Equipment

DXP is the one stop shop for your bio fuel generation pumping and process related needs. This includes including boiler feed pumps, wastewater transfer, cooling water, water supply, feed pumps as well chemical transfer and storage

systems.

### Condition Monitoring

With the use of PumpWorks' cloud based Predict-Plus Remote Pump Monitoring systems, DXP is able to provide plant equipment vibration and temperature monitoring and trending. PumpWorks Predict Plus utilizes a cellular based communications platform that allows data

visualization and storage for temperature, RMS vibration and Fast Fourier Transform (FFT) on any computer or mobile device across the North American and in over 107 different countries

### Lobed Blowers

Lobed Blowers are used in ethanol plants for pneumatic conveying of grains/corn into silos from truck as well as the movement of grain/corn around the plant. DXP has a complete line of blowers in order to provide the best fit

for your application.

### Renewable Oil Blending Systems

Packaged liquid blend Systems designed to minimize on site installation costs by modularizing the complete Liquid Blending System – kettle,

mixer(s), material lift, PLC controls, instrumentation, & electrical switchgear. Packaged Liquid Blending Systems are used for blending solid or granular polymers in a liquid base material. Typical applications include blending finished products such as motor oil base stock, asphalt extenders, paint and adhesives.

### Automation & Power Control Buildings

Automation and Control systems are designed to monitor and control the packaged equipment. The controls can be skid mounted and pre-wired or remote mounted in an unclassified

electrical area. Optionally, the control system can interface with the customer's plant control system. A typical control system includes a NEMA enclosure, power distribution components, control power components, programmable controller and on-skid wiring in conduit.

### Biogas Digester Feed/Circulation Hose Pumps

Hose Pumps are the most reliable way to feed biomass into anaerobic digesters. These low maintenance, high reliability pumps can handle grass,

straw, manure and any solids (fiber, dry matter and soil/ debris) being fed. Hose pumps are also used to circulate biomass between digesters. Whether stand alone or skid mounted or containerized, DXP provides the right solution for your application.
